**FEMA!!**

**FINALLY!!!**

Please see here the [news release from FEMA's Washington office](#). The next step is for them to download money to GEMA which will disperse it to us as reimbursements for 85% of our costs. Our City Council has chosen a bidder for the dam repair project - J. M. Wilkerson Construction Company of Marietta, and I expect to be able to sign a contract with them shortly. I will then ask our City Engineer to recalculate all of our project timeline and we will share that kind of information with you as soon as possible.

Thanks to all of our citizens for your patience with this long process. Clearly it has been worth the wait.

Lois D. Salter  
Mayor
